

AKULA ASHISH KUMAR

Rajahmundry, India | +91 9951092727 | akulaashish27@gmail.com | Portfolio: devash.in/portfolio3

PROFESSIONAL SUMMARY

Junior DevOps Engineer with hands-on experience supporting cloud infrastructure, CI/CD automation, Infrastructure as Code, configuration management, containerized application deployment, monitoring, and troubleshooting. Familiar with AWS, Terraform, Ansible, Docker, Kubernetes, Git, GitHub Actions, Python, and Shell scripting. Experienced in automating deployment activities, provisioning cloud infrastructure, configuring servers, and supporting reliable DevOps environments.

TECHNICAL SKILLS

Cloud: AWS, EC2, S3, IAM, VPC

DevOps & CI/CD: CI/CD Pipelines, GitHub Actions, Continuous Integration, Continuous Deployment, Build Automation, Application Deployment

Infrastructure as Code: Terraform, Infrastructure Provisioning

Configuration Management: Ansible

Containers & Orchestration: Docker, Kubernetes

Version Control: Git, GitHub

Scripting: Python, Shell Scripting

Monitoring & Operations: Monitoring, Logging, Performance Monitoring, Troubleshooting

Security: Access Control, Vulnerability Scanning, Security Best Practices, Compliance

PROFESSIONAL EXPERIENCE

Junior DevOps Engineer | RisingSun Softsol | Remote | June 2025 – Present

- Support CI/CD pipelines for automated application build, testing, and deployment activities.
- Use Terraform for cloud infrastructure provisioning and Infrastructure as Code practices.
- Use Ansible for server configuration, automation, and routine administration tasks.
- Support Docker and Kubernetes deployments for containerized applications.
- Monitor infrastructure and application health, troubleshoot deployment issues, and assist with operational problem resolution.
- Follow security and access-control practices while working with cloud infrastructure and maintain deployment documentation.

DEVOPS PROJECTS

End-to-End CI/CD Pipeline for Containerized Application | GitHub Actions | CI/CD | Docker | AWS EC2 | Linux | Shell Scripting

- Built a GitHub Actions CI/CD workflow for automated application build, testing, and deployment.
- Created Docker images and deployed the containerized application on AWS EC2.
- Configured application runtime settings, ports, and container lifecycle management.
- Used Git and GitHub for source control and deployment configuration.

AWS Infrastructure Provisioning & Configuration Automation | Terraform | AWS | Ansible | EC2 | VPC | IAM | Linux

- Automated AWS infrastructure provisioning using Terraform following Infrastructure as Code practices.
- Configured EC2, VPC, security configurations, and IAM-related access.
- Used Ansible playbooks for server configuration, package installation, and application setup.
- Managed reusable Terraform definitions and Ansible YAML playbooks for infrastructure automation.

Automated DevOps Deployment Environment | Terraform | GitHub Actions | Docker | GitHub | AWS EC2 | CI/CD

- Built an integrated workflow combining infrastructure provisioning, CI/CD automation, containerization, and application deployment.
- Used Terraform to provision AWS infrastructure and prepare the deployment environment.
- Integrated GitHub Actions for automated application build and deployment workflows.
- Used Docker to package applications for deployment on AWS EC2.

INTERNSHIP EXPERIENCE

AWS Cloud Intern | Techwing | May 2023 – June 2023

- Worked hands-on with AWS EC2, S3, and IAM through practical cloud scenarios.
- Practiced EC2 instance management, S3 storage operations, and IAM users, roles, permissions, and access control.
- Gained practical understanding of AWS infrastructure and cloud resource management.

ChatGPT & Generative AI Intern | IIDT + Blackbucks | May 2024 – June 2024

- Explored practical applications of Generative AI and conversational AI using ChatGPT and Gemini.
- Worked on AI-assisted problem solving and productivity use cases.

AI Intern – Short Term | AIMER Society | June 2023 – July 2023

- Gained exposure to AI tools and cybersecurity concepts through training and project-based activities.
- Completed practical exercises demonstrating AI applications.

EDUCATION

Bachelor of Technology – Computer Science Engineering | Godavari Institute of Engineering and Technology (Autonomous), JNTUK | August 2022 – April 2025

Diploma | Aditya Polytechnic College, SBTET | May 2019 – April 2022

Secondary School Certificate | Oxford Concept School, BSEAP | January 2018 – January 2019

CERTIFICATIONS & TRAINING

- AWS Web Services Training – Techwing
- Solutions Architecture Job Simulation – Forage
- AI & Cybersecurity Internship – Blackbucks & IIDT
- ChatGPT & Generative AI Internship – AIMER Society
