Professional Summary

Highly driven and detail-oriented Computer Science undergraduate with hands-on experience in Amazon Web Services (AWS) and AI tools. Skilled in Python, problem-solving, and effective communication. Proven ability to work in team environments and fast-paced projects. Seeking an entry level opportunity to leverage my technical skills and drive impactful innovations in cloud computing, software development, or AI-based applications. Got hands-on experiences in DevOps building and development of projects with own learning.

Education

B.Tech in Computer Science Engineering

Godavari Institute of Engineering and Technology (Autonomous), JNTUK
Completed: 2025

Diploma in Engineering

Adithya Polytechnic College, SBTET
Completed: 2022

Secondary School Certificate (SSC)

Oxford Concept school, BSEAP
Completed: 2019

Technical Skills

- **Cloud Technologies:** AWS (EC2, S3, IAM, VPC....., etc.).
- **Programming:** Python, Linux commands.
- **Soft Skills:** Communication, Teamwork, Problem-Solving, Leadership.
- **DeVops:** Shell scripting, Git, CI/CD, Terraform, Docker, Kubernetes.

Internship Experience:

AWS Cloud Intern

Hands-on experience with EC2, S3, and IAM. Worked on real-world scenarios using AWS services.

Techwing, 2023

ChatGPT & Generative AI Intern

Explored applications of conversational AI tools like ChatGPT and Gemini.

IIDT + Blackbucks, 2024

AI Intern (Short-Term)

Learned about AI tools and cybersecurity. Completed small projects demonstrating AI applications.

AIMER Society, 2023

Projects

NEXUS SYNC – Fully Automated Web scraper And Cloud Application:

A fully automated data pipeline using AI-assisted Python and Selenium to scrape government portals, analyze metrics with Pandas, and broadcast daily WhatsApp reports. Containerized the application and web drivers with Docker to ensure consistent, reliable execution across all environments. Provisioned an AWS EC2 Linux instance to host the workload, transforming the local script into a zero-touch, 24/7 background service. Implemented a GitHub Actions CI/CD pipeline to automatically build and deploy new Docker images upon every code update.

Deploying a Node.js application:

Launched a Node.js application with AWS Cloud with ec2 and some IAM rules and configuration of Some port numbers to allow internet and gain hands on experience of errors and deployment.

Certificates

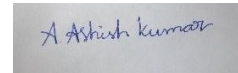

- AWS Web Services Training – Techwing
- ChatGPT & Generative AI Internship – Blackbucks & IIDT
- AI & Cybersecurity Internship – AIMER Society
- Solutions Architecture Job Simulation -Forage

Personal Information

- **Date of Birth:** 09 August 2004
- **Languages:** English, Telugu, Hindi.
- **Hobbies:** Learning from social media, Vibe Coding, Gaming.
